

## GOAL!

This is a good game with for increasing reading speed. Children really enjoy trying to beat their own reading speed.

- Make a set of cards using fairly challenging words – perhaps from books the children have been reading.
- Set a timer/ time with your watch for one minute or less and ask the child to read as many word cards as he/she can in the time allowed.
- When the time is up, count the number of correctly read cards. The child may move their counter the same number of footballs.
- Repeat with any unread cards on top of the pile.
- Set a target of up to 30 words a minute.

Ask us for counters/blank cards/egg timers.
